Comments: I absolutely oppose the use of Yucca Mountain for a national nuclear waste dump site. The Energy Department has used the wrong approach for the resolution of eliminating dangerous nuclear waste. Instead of burying the waste underground in a yet to be proven scientifically sound underground site, we should look to other parts of the world, such as Europe, where they have put forth research and development to convert the nuclear waste to a useful by-product which is substantially safer and will not involve hundreds and thousands of years to render the nuclear waste safe. I, as a Nevadan, as well as most everyone who discusses this project as fellow Nevadans, do not trust the studies completed by your department and the various associated contractors and agencies. It is strongly believed that your department had a predisposition to deem Yucca Mountain as an approved safe site even if the scientific evidence proved otherwise. We know that no other States want the spent nuclear fuel and their elected o
